

Intelligent Display

MEDIASMART_T

FOR TATSUNO DISPENSERS

FEATURES

The MEDIASMART to be installed on Tatsuno dispensers allows you to have a perfect solution where the MEDIASMART monitors are autonomous with respect to the dispensing displays of the Tatsuno dispensers. In this way, the display of the delivery does not interfere in any way with the display of videos and communication messages to users, thus ensuring a unique solution of its kind compared to all the other dispensers currently on the market.

Two versions of MediaSmart are available for Tatsuno dispensers:

- The MediaSmart_T_Euro version for Tatsuno Ocean EURO dispensers
- The MediaSmart_T_Tower version for Tatsuno Ocean TOWER dispensers

MEDIASMART_T_TOWER

The MEDIASMART unit is an intelligent communication system. Through the MEDIASMART system it is possible to view videos and messages to provide information to users regarding the services offered on the service station or it is possible to view videos and advertisements, including the ones from third parties.

ADDED VALUE

- ➔ The great advantage of the MediaSmart units is that they are intelligent devices integrated into the Maser automation architecture of the Site Management.
- ➔ The video files to be displayed are managed directly through the StoreSmart System, thus allowing fast, flexible and above all completely automated management.
- ➔ Thanks to this fully integrated management it is possible to send files directly to the MediaSmart units from the StoreSmart system and it can be done numerous amount of times a day without any problem.
- ➔ If you have centralized remote management, you can manage the video files directly from the OfficeSmart System, installed in the Company's offices.
- ➔ The files sent by the HQ to the service stations on its network can be the same for all service stations or can be "customized" for each service station, guaranteeing flexibility and management that is unique of its kind.

On Tatsuno dispensers, the MediaSmart_T unit is designed to be independent of the dispenser display.
