

Price Totem

LED PRICES KIT

FOR INSTALLATION ON EXISTING TOTEM

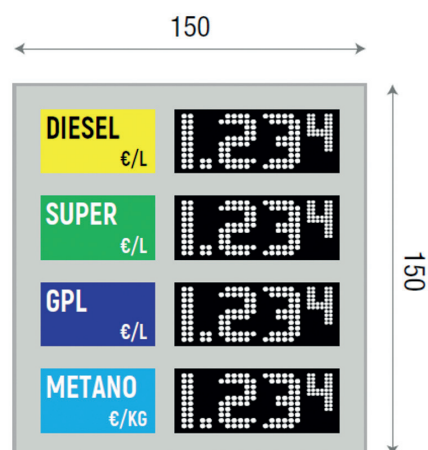

FEATURES

The prices are displayed and managed directly through the StoreSmart System, thus allowing fast, flexible and above all completely automated control. Thanks to this fully integrated management it is possible to send the Product Prices from the StoreSmart system directly to the PRICE KIT units multiple times a day without limit to the number of iterations.

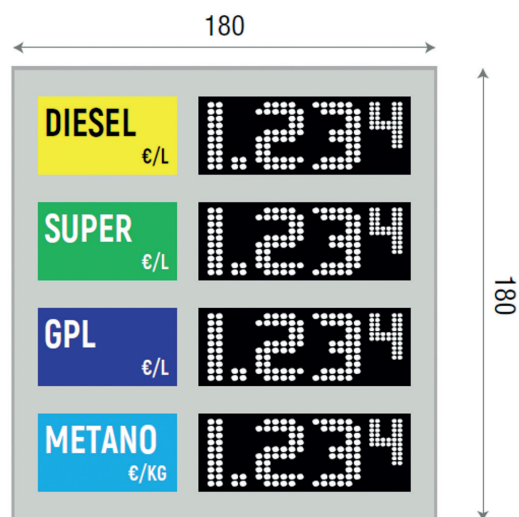

In the case of centralized remote management, the Product Prices can be controlled directly from the OfficeSmart System in the network Headquarters. The system allows the manager to change the prices for the entire network or for every single station.

THE PRICE KIT IS COMPOSED AS FOLLOWS:

- Pre-painted (white or silver) press-folded aluminum composite panels.
- Internal supporting frame in tubular FE, fixing on existing pole.
- Luminous product panel, transparent plexiglass with window stickers
- Price change management with remote controller
- Price change management through Site Management
- Light Emitting Diode technology

LED DISPLAY H FIGURE 25 CM

LED DISPLAY H FIGURE 30 CM

The PRICE KIT is useful for upgrading an existing flag Totem on which it is necessary to replace the price display part and retrofit it into a smart device. The flag Totem upgraded with a Pricing Kit allows you to have a perfect solution to view the fuel prices applied at the Point of Sale.
