FLAG POLE PRICE TOTEM

FEATURES

The prices are displayed and managed directly through the StoreSmart System, thus allowing fast, flexible and above all completely automated control. Thanks to this fully integrated management, it is possible to send Product Prices from the StoreSmart system directly to the TOTEM units multiple times a day without limit to the number of iterations. In the case of centralized remote management, the Product Prices can be controlled directly from the OfficeSmart System in the network Headquarters. The system allows the manager to change the prices for the entire network or for every single station.

The TOTEM POLE FLAG is composed as follows:

- Pole 300x200x8 mm.
- Angular profile in sheet metal.
- Opal methacrylate panel with logo in cut-out films.
- Lighting with led lamps.
- White or silver pre-painted aluminum composite panels.
- Price change management with remote controller
- Price change management through the Site Management

The FLAG POLE TOTEM is placed on the street side of the service station and is equipped with a smart digital display visualizing the Point of Sale product prices.
