MASER MAC 4.0 is our all-in-one solution for autonomous petrol station forecourt automation and management. The MASER MAC 4.0 is an autonomous forecourt management system, capable to manage all critical processes, devices and systems at the petrol station 24/7/365. Industry leading reliability achieved by innovative and robust, yet elegant hardware design. The MASER MAC 4.0 accepts cash and card payments. The INTEGRATED cash safe technology makes sure your cash is accessible only to you. Our MASER MAC 4.0 can be equipped with a standard safe version, a Class 2 double-wall - concrete reinforced safe or an automatic underground super-safe.

Outdoor Payment Terminal MAC 4.0 SINGLE SIDE

ADDED VALUE

- ➔ Unique MASTER-MASTER system architecture -virtually no downtime of forecourt operations
- ➔ Next-gen PHYSICAL, COGNITIVE AND LIGHTING ERGONOMICS
- ➔ TOP industry security standards for bank notes and card acceptance transactions (EMV, PCI DSS, CB2, etc.)
- ➔ Autonomous 24/7 critical forecourt systems management
- ➔ Built-in site-controller hardware management interface
- ➔ Multi-protocol support for Dispensers, Price totems, ATGs & Car-wash systems
- ➔ Linux OS - fastest reboot and minimum downtime on the market
- ➔ Management and control OF ATTENDANTS with MASER's FillSmart Technology
- ➔ Automated cash flow and attendant shift control and monitoring
- ➔ Flexible operation modes (unmanned, Fast line, Hybrid etc.)

We also offer a double-sided version of the mac 4.0 - MAC 4.0 DUO. The built-in universal forecourt controller(ufc) is a proprietary solution capable of communicating and integrating with all EXISTING AND legacy FORECOURT devices. The unique MASTER-MASTER software architecture delivers the lowest possible operation downtime in the industry. MAC 4.0 is designed to have 100% redundancy with the StoreSmart 4.0 forecourt management system. If, for some reason, the StoreSmart 4.0 system is offline the MAC 4.0 is capable to autonomously manage all the critical forecourt operation systems - Dispensers, Price totems, ATGs & Car-wash systems etc. The payment module is PCI PED, EMV level 1 & 2 certified.
